**Two New Districts and LASC Get OPRA in January**

Marina del Rey, CA: In an economic down turn it's not too difficult to see why organizations turn to OPRA to increase efficiency and reduce costs. That's exactly why four new enterprises signed up for OPRA in the first two weeks of January.

OPRA welcomes the Santee School District in San Diego County, Los Angeles Southwest Community College and Anaheim Elementary School District

Implementation of OPRA at these sites was a seamless process. Once deployed over the Internet, OPRA is available at all sites. The training phase took one day at Santee, a day and a half at LASC and training is scheduled to begin at Anaheim in February.

Welcome aboard everyone!
